### From the Airport

Whether you arrive at Düsseldorf, Frankfurt, Cologne/Bonn or Dortmund Airport, you have to go by train to Schwerte. Arriving in Cologne/Bonn means that you first have to take an S-Train (you will find the signs pointing you to the rails), and transfer to a regular train later. In Dortmund you first take a bus to the Unna Train station. You can gather all information regarding your individual journeys from this website: <https://www.bahn.com/en/view/index.shtml>

The station you have to go to is called **Schwerte (Ruhr)**. You can book train tickets at the airport at a ticket machine or beforehand, using the above provided link. Depending on your connection, you might have to change trains once or twice. It is advisable to look this up beforehand online, so that you have a relaxed journey. For this you can also use the link above.

When you have arrived in Schwerte, you have three options:

Option 1: You take the bus C/T32 (Direction: Ergste Im Wietloh, Schwerte), and get off at "Ruhrbrücke". It takes about 13 minutes and leaves about every 30 minutes. You can check the schedule of the bus on the same page as the train schedule (see above). From there it is a 10 minute walk to the academy, along the street "Iserlohner Straße". The academy is on your lefthand-side. Check your trainticket: If it says "+City" in the top, then you don't have to buy a busticket. But you can always ask the busdriver, showing him/her your ticket and pay in the bus if necessary.

Option 2: You call **0049 1803/504038** at least an hour before you arrive in Schwerte and want to continue your journey. Via this number you can book a bus-taxi which will take you to the doorstep of the academy. They drive once an hour, leaving at about a quarter to the full hour. Again, depending on your train ticket the drive is for free or costs 1,70€ per trip. On the phone, you tell them that you want to go to "House Villigst". It takes about ten minutes.

Option 3: You take a taxi from the station in Schwerte. It costs about 10 Euros.
