### Call for Papers

We are pleased to announce that this year's workshop of the **AFK-working group Empirical Methods in Peace and Conflict Research** will be held at the German Development Institute / Deutsches Institut für Entwicklungspolitik (DIE) in Bonn. The workshop will take place on 26-27 September 2019. As in previous years, we invite papers that are based on theory guided, empirical research in the field of peace and conflict studies. The workshop's aim is to promote exchange and networking among researchers in the field. Therefore, we explicitly invite contributions that apply diverse methods ranging from qualitative to quantitative methodologies and are looking forward to a fruitful exchange. Participants can look forward to engaging discussions and high quality feedback. Presentations can be held in English or German.
